

CUMULATIVE INDEX 1994

Volume 10

January	PREDICTING INTENSIVE CARE UNIT OUTCOME, pages 1-246
April	IMAGING IN THE INTENSIVE CARE UNIT, pages 247-459
July	TRAUMA AND PRE-EXISTING DISEASE: PART II SPECIFIC MANAGEMENT CONCERNS, pages 461-649
October	IMPROVING PATIENT TOLERANCE OF MECHANICAL VENTILATION, pages 651-883

Note: Page numbers of issue and article titles are in **boldface** type.

- Abdomen, aortic aneurysm of, ultrasonography of, 354-357
 CT of, **321-339**. See also specific diseases.
 infection of, scintigraphy for, 387
 plain film radiographic examination of, **277-296**
 ultrasonography of, **297-319**. See also specific sites.
- Abdominal aortic rupture, CT of, 335
- Abruptio placentae, in pregnant trauma patients, 630
- Abscess(es), appendiceal, CT of, 333-334
 colonic diverticular, CT of, 334
 extraperitoneal, CT of, 332-334
 hepatic, CT of, 322-323
 ultrasonographic detection of, 304-305
 intra-abdominal, ultrasonographic detection of, 315-316
 intraperitoneal, CT of, 332-334
 mediastinal, chest CT for, 271
 pelvic, MRI of, 409
 percutaneous management of, 445-446
 renal, CT of, 329-330
 splenic, CT of, 328-329
- Abscess cavity, plain film radiographic examination of, 285, 288, 289
- Acetylcholine (ACH), in neural communication, 781
- Acidosis, lactic, in shock, 181-183
- Acquired immunodeficiency syndrome (AIDS), MRI of, 413-414
- Actigraphy, in sleep measurement, 684
- Acute myopathy syndrome, 805-806
- Acute Physiology and Chronic Health Evaluation. See *APACHE*.
- Addison's disease, described, 543-545
- Adjustment disorder with anxiety, in ICU, 677
- Adrenal insufficiency, described, 543-545
- Adult respiratory distress syndrome (ARDS), acute, mortality following, 206
 outcome following, predictors of, 207-208
 outcome following, 206-212
 functional, 208-210
 radiographic evaluation of, 261-263
- Age, as factor in peripheral arterial disease, 567
 as factor in trauma patients with pre-existing cardiac disease, 461-463
- Agitation, defined, 661
 drugs for, **709-731**
 life-threatening episodes of, 750-753
- AIDS. See *Acquired immunodeficiency syndrome*.
- Airway obstruction, in near-death experience, 655-656
 in trauma patients with chronic pulmonary disease, 514-515
- Alcohol, use of, classification of, 605
- Alcohol abuse, in brain-injured trauma patients, 636
 motor vehicle accidents and, 595, 596
 in trauma patients, **595-611**
 acute intoxication, 596-597

- Alcohol abuse (*Continued*)
 chronic abuse, and withdrawal syndrome, 597-598
- Alcohol withdrawal, delirium tremens with, 678, 751
- Alpha₂-adrenoreceptors, for hyperadrenergic hyperfunction, 743
- Amniotic fluid embolus, in pregnant trauma patients, 630
- Amrinone, in trauma patients with pre-existing cardiac disease, 491
- Analgesia, patient-controlled, for pain in mechanically ventilated patients, 769
- Analgesics, in organ system failure, 745-746
- Anesthesia/anesthetics, in the ICU, 437-438
 local, with opioids, combined infusions of, for pain in mechanically ventilated patients, 773
 for pain in mechanically ventilated patients, 770
 in trauma patients with pre-existing cardiac disease, 484, 488-489
- Aneurysm, aortic, abdominal, ultrasonography of, 354-357
 mycotic, of the ascending aorta, 404-405
- Angina, defined, 475
 evaluation and management, 475
 pre-existing, in trauma patients, 466
- Anti-inflammatory drugs, nonsteroidal (NSAIDs), for pain in mechanically ventilated patients, 774
- Antibiotic(s), in trauma patients with pre-existing peripheral arterial disease, 578-579
- Anxiety, adjustment disorder with, in ICU, 677
 causes, 675
 defined, 661, 674
 in ICU, 673-675
 weaning and, 678-679
- Aorta, ascending, aneurysm of, 404-405
 injury to, in trauma patients with pre-existing peripheral arterial disease, reconstruction for, 584-588
- Aortic aneurysm, abdominal, ultrasonography of, 354-357
- Aortic dissection, CT for, 271
- Aortic insufficiency, in trauma patients with pre-existing cardiac disease, treatment, 493
- Aortic stenosis, in trauma patients with pre-existing cardiac disease, treatment, 492
- APACHE, 59-60
 ethical appropriateness of, 233-236
 limitations of, 235-236
 in prediction of ICU outcome, case against using, 117-125, 127-128, 129-134
 properties of, 3-4
 uses of, 234-235
- APACHE II, errors and bias in, 60-64
- APACHE III, 94-98
 admission in, precipitating reasons for, 96-97
 in the Cleveland project, 151-153
 components of, 94, 95
 errors and bias in, 64-68
 score ranges of, 94
- Appendicitis, CT of, 333-334
- Appendicoliths, plain film radiographic examination of, 293, 294
- Apprehension, defined, 661
- ARDS. See *Adult respiratory distress syndrome*.
- Arousal, autonomic, defined, 661
- Arrhythmia(s), pre-existing, in trauma patients, 463-464
 in trauma patients, 469-470
 treatment, 493-498
- Artery(ies), axillary, injury to, in trauma patients with pre-existing peripheral arterial disease, treatment, 584
 brachiocephalic, injury to, in trauma patients with pre-existing peripheral arterial disease, treatment, 583
 extrathoracic subclavian, in trauma patients with pre-existing peripheral arterial disease, treatment, 583-584
 injury to, in trauma patients with pre-existing peripheral arterial disease, treatment, 582-583
 peripheral, disease of. See *Peripheral arterial disease (PAD)*.
 pulmonary, catheters in, placement and misplacement of, 427-430
- Ascites, in patients with pre-existing liver disease, 560-563
- Aspiration, radiographic evaluation of, 260
 ultrasound-guided, 315-316
- Atelectasis, radiographic evaluation of, 256-257
- Atracurium, description and uses of, 787, 790
 for respiratory failure, 835, 836
 indications, 840
- Atrial fibrillation, in trauma patients, treatment, 494-495
- Atrial flutter, in trauma patients, treatment, 494-495
- Autonomic arousal, defined, 661
- Axillary artery, injury to, in trauma patients with pre-existing peripheral arterial disease, treatment, 584

- Barbiturate(s), abuse of, in trauma patients, 601
 clinical indications, 717
 pharmacokinetics of, 716
 pharmacology of, 716-717
 physiology of, 716
 side effects, 716
- Benzodiazepines, abuse of, in trauma patients, 601-602
 clinical indications, 714-715
 for delirium tremens, 753
 for hyperadrenergic hyperfunction, 738-743
 pharmacokinetics of, 713
 pharmacology of, 711-715
 receptor physiology of, 711-712
 side effects, 713-714
 for sleep disturbances in ICU, 690-691
- Bifascicular block, in trauma patients, for atrial fibrillation/flutter, 498
- Biliary tree, calcifications in, plain film radiographic examination of, 294
 gas in, plain film radiographic examination of, 288-289, 291
 ultrasonography of, 297-303
- Biofeedback, for patient distress during mechanical ventilation, 103
- Biopsy, muscle, in evaluation of muscle weakness following neuromuscular blockade, 804
 nerve, in evaluation of muscle weakness following neuromuscular blockade, 804
- Bleeding, gastrointestinal, radionuclide evaluation of, 375-378
 in trauma patients with pre-existing peripheral arterial disease, treatment, 579-580
- Blood gases, arterial, for trauma patients with chronic pulmonary disease, 509-510
- Blood pressure, intra-arterial, in trauma patients with pre-existing cardiac disease, 481
- Blood transfusion, in traumatized renal failure patients, 528-529
- Blood volume, systemic, evaluation of, chest radiography for, 251
- Bowel, obstruction of, plain film radiographic examination of, 279-292
- Bowel gas patterns, plain film radiographic examination of, 279-292
- Brachial plexus blocks, "single-shot," 775
- Brachiocephalic artery(ies), injury to, in trauma patients with pre-existing peripheral arterial disease, treatment, 583
- Bradyarrhythmia(s), in trauma patients, treatment, 497
- Bradycardia, junctional, in trauma patients, treatment, 497
 sinus, in trauma patients, treatment, 497
- Brain, scintigraphy of, 378-380
- Brain death, radionuclide scanning in, 379
- Brain failure, cerebral function monitoring for, 756-759
 dopaminergic imbalances in, 737-738
 in ICU, 734-735
 neurobiology of, 733-734
 noradrenergic hyperfunction in, treatment, 738-743
 symptoms, 735-736
 treatment, cholecystokinin antagonists, 760-761
 drugs in, 733-765. See also *Organ system failure*.
 serotonin in, 759-760
- Brain injury, irreversible, prediction of, future directions in, 225-226
 traumatic, in patients with neurologic and psychiatric disorders, risk of, 635-638
- Breathing, long-term ventilation effects on, 852-856
- Brief-MAST, 606-607
- Bupivacaine, for pain in mechanically ventilated patients, 770-771
- Buprione, in brain failure and delirium, 760
- Cacification(s), abdominal, plain film radiographic examination of, 293-294
- CAGE Questionnaire, 606
- Calf, veins of, vascular ultrasonographic evaluation of, 351-353
- Calibration, defined, 56-57
 in probability model, 101-102
- Candidiasis, hepatic, ultrasonographic detection of, 305
- Carbon dioxide, end-tidal, in cardiac arrest, 189-191
- Carbon monoxide poisoning, in pregnant trauma patients, 631
- Cardiac arrest, coronary perfusion pressure in, 188-189
 end-tidal carbon dioxide in, 189-191
 ICU outcome related to, 188-191
 Cardiac disease. See *Heart disease*.
- Cardiac function, in trauma patients with pre-existing peripheral arterial disease, 574-575
- Cardiac output, in trauma patients with pre-existing cardiac disease, 482
- Cardiopulmonary resuscitation (CPR), coma following, prognosis, 221-222

- Cardiovascular system, abnormalities of,
 chest CT for, 271-274
 in patients with pre-existing liver
 disease, 559-560
 benzodiazepines effects on, 714
 evaluation of, chest radiography for,
 250-255
 narcotic effects on, 724
 in obese trauma patients, 616-617
 pregnancy-induced changes in, 624
 Carotid artery(ies), injury to, in trauma
 patients with pre-existing peripheral
 arterial disease, treatment, 582-583
 Catecholamine(s), in trauma patients with
 pre-existing cardiac disease, 491
 Catheter(s), central venous, insertion of,
 438-441
 placement and misplacement of,
 424-427
 epidural, in mechanically ventilated pa-
 tients, in pain management, 770-773
 fragments of, retrieval of, in the ICU,
 441-443
 placement and misplacement of, 417-436
 See also specific types of catheters.
 pulmonary artery, placement and mis-
 placement of, 427-430
 Catheterization, arterial, complications of,
 ultrasonography of, 357-359
 Cecum, distention of, plain film
 radiographic examination of, 281
 Central nervous system (CNS), infections
 of, MRI of, 413-414
 Central nervous system (CNS) function, in
 trauma patients with pre-existing
 peripheral arterial disease, 575
 Central nervous system (CNS) injury. See
 also specific types of injury.
 future directions in, 225-226
 ICU outcome following, 217-228
 Central venous pressure, in trauma
 patients with pre-existing cardiac
 disease, 481
 Cerebral function monitor, in sleep
 measurement, 684
 Cerebral function monitoring, in brain
 failure and delirium, 756-759
 Cerebrovascular disease, in trauma
 patients, 569-570
 Cesarean section, perimortem, in
 pregnancy trauma patients, 631
 Chest, CT of, in the ICU, 267-275
 Chest radiography, in ARDS evaluation,
 261-263
 in aspiration evaluation, 260
 devices on, 249-250
 in evaluation of cardiovascular status,
 250-255
 in evaluation of pulmonary disease,
 256-260
 film analysis, 248
 portable, uses of, 247-248
 Chest trauma, CT for, 271
 Cholangitis, ascending, CT of, 322
 Cholecystitis, acalculus, ultrasonographic
 detection of, 301
 acute, CT of, 321-322
 scintigraphy in, 371-373
 acute calculus, ultrasonographic detec-
 tion of, 298-301
 emphysematous, plain film radiographic
 examination of, 289
 gangrenous, ultrasonographic detection
 of, 301
 Cholecystokinin antagonists, in brain
 failure and delirium, 760-761
 Cholecystokinin receptors, in brain failure
 and delirium, 761
 Choledocholithiasis, ultrasonographic
 detection of, 302-303
 Chronic obstructive pulmonary disease
 (COPD), acute respiratory failure in,
 outcome following, 197-215
 postoperative complications related to,
 512-513
 Cirrhosis, ascites in, 560-563
 in trauma patients, 558
 Cleveland, reimbursement strategies in,
 severity scoring systems for, 148-150
 APACHE III in, 151-153
 paying for, 154-155
 Clinical abstracts, 48
 Clonidine, for hyperadrenergic
 hyperfunction, 743
 for life-threatening delirium, 754
 CMV. See *Cytomegalovirus*.
 CNS. See *Central nervous system*.
 Coagulation, diabetes mellitus and,
 542-543
 Coagulopathy, in patients with pre-existing
 liver disease, 560
 Cocaine, abuse of, in trauma patients,
 602-604
 Cognitive-behavioral strategies, for patient
 distress during mechanical ventilation,
 700-704
 Cognitive distortion, defined, 661
 Colitis, plain film radiographic examination
 of, 282-283
 Colon, obstruction of, plain film
 radiographic examination of, 280
 Coma, defined, 661
 following cardiopulmonary resuscitation,
 prognosis, 221-222
 following drug overdose, prognosis, 221
 following stroke, prognosis, 219-221
 nontraumatic, prognosis, 218-222

- poor outcome following, predictors of, 225
- traumatic, prognosis, 222-224
- Communication, with intubated patients, 696-698
- Computed tomography (CT), abdominal, 321-339. *See also* specific diseases.
- for abscesses, 332-334
- in acute hepatobiliary inflammatory disease, 321-323
- in acute pancreatic inflammatory disease, 324-328
- in intestinal diseases, 334-335
- for jaundice, 323-324
- in kidney disease, 329-332
- for spleen, 328-329
- chest, for cardiovascular abnormalities, 271-274
- in the ICU, 267-275
- in lung disease, 268-269
- for mediastinal abnormalities, 271
- in pleural disease, 269-270
- Conduction defects, in trauma patients, treatment, 497-498
- Control, loss of, in near-death experience, 652-653
- Coronary artery disease, in trauma patients, 569
- Coronary care unit (CCU), use of severity of disease systems in, 175
- Coronary perfusion pressure, in cardiac arrest, 188-189
- Corticosteroid(s), for trauma patients with chronic pulmonary disease, 515
- Cost-containment, severity models for, 103
- Critical care, history of, 157-159
- Critical care medicine, effects on ICU outcome, 165-168
- Critical care research, clinical databases and, 46-49
- Cross-clamping, aortic, in trauma patients with pre-existing cardiac disease, 484
- CT. *See* *Computed tomography*.
- Curare, description of, 790
- for respiratory failure, 835, 836
- uses of, 790
- Cystitis, emphysematous, plain film radiographic examination of, 290, 292
- Cytokine markers, in shock, 184-185
- Cytomegalovirus (CMV) pneumonia, 257
- Data, acquisition of, 43-45
- recommendations for, 49
- definition and validation of, 42-43
- recommendations for, 49
- management, 45-46
- recommendations for, 50
- manipulation of, 45-46
- objective quality assurance, 157-177
- need for, 157-159
- storage of, recommendations for, 49-50
- Data dictionary, 43
- Data glut, 47
- Data model, 48
- Data poverty, 47
- Database(s), clinical, and clinical decision-making, 48-49
- and critical care research, 46-49
- to electronic medical record, 41-42
- electronic to, 39-40
- and clinical research, 42-46
- defined, 39
- and the electronic medical record, 38-42
- electronic, 38-39
- to clinical databases, 39-40
- types, 37
- Database management system (DBMS), defined, 39
- DBMS. *See* *Database management system*.
- Death, near. *See* *Near-death experience*.
- Defensive withdrawal, defined, 661
- Delirium, causes, 676, 678
- cerebral function monitoring for, 756-759
- defined, 661, 676
- drugs for, 709-731
- in ICU, 676-678, 677, 734-735
- life-threatening episodes of, 750-753
- treatment, 753-755
- neurobiology of, 733-734
- symptoms, 735-736
- treatment, cholecystokinin antagonists, 760-761
- drugs in, 733-765. *See also* *Organ system failure*.
- serotonin in, 759-760
- Delirium tremens, alcohol withdrawal and, 678, 751
- treatment, 753
- Depression, in ICU, 677
- Dexmedetomidine, for hyperadrenergic hyperfunction, 743
- Diabetes mellitus, chronic, conditions associated with, 541-543
- coagulation affected by, 542-543
- hyperglycemia and, 539-540
- hypoglycemia and, 540-541
- incidence, 538
- infections associated with, 539-540
- motor vehicle accidents in patients with, 538
- neuropathies associated with, 541-542
- in trauma patients, 571
- management, 538-543
- Dialysis, peritoneal, in traumatized renal failure patients, 530-532

- Discomfort, control of, in near-death experience, 653-654
 in near-death experience, 653-654
- Discrimination, defined, 56
- Distraction, for patient distress during mechanical ventilation, 702
- Distress, defined, 661
- Distribution half-life, of drugs, 711
- Doppler ultrasonography, color, abdominal, 307-309
- Doxacurium, description and uses of, 790
- Droperidol, pharmacology of, 719-720
- Drug(s), for brain failure and delirium, 733-765
 inotropic, in trauma patients with pre-existing cardiac disease, 491
 overdose of, coma following, 221
 in traumatized renal failure patients, 529
- Dulin-Williams protocol, description of, 817-819
 documentation record, 829
 forms used in, 827-829
 for monitoring paralyzed patients in respiratory failure, 816-825
 nursing checklist, 828
 pain and sedation in, 824
 physician orders, 827
 prolonged immobilization in, 824-825
 protocol preparation, 819-824
- Dyspnea, defined, 661, 852
 in long-term ventilated patients, 852-856, 858-860
- Eating, long-term ventilation effects on, 862
- ECG. See *Electrocardiogram*.
- Echocardiography, in pericardial disease, 273-274
 transesophageal, in trauma patients with pre-existing peripheral arterial disease, 575
- Eclampsia, in pregnant trauma patients, 630-631
- Ectopic beats, in trauma patients, treatment, 498
- Electrical-mechanical dissociation, in trauma patients, treatment, 498
- Electrocardiogram (ECG), in trauma patients with pre-existing cardiac disease, 480
- Electrodiagnosis, in evaluation of muscle weakness following neuromuscular blockade, 802-804
- Electrolyte(s), abnormalities of, in traumatized renal failure patients, 527-528
- Electromyography, needle, in evaluation of muscle weakness following neuromuscular blockade, 803-804
 single-fiber (SFEMG), in evaluation of muscle weakness following neuromuscular blockade, 803
- Embolism, pulmonary, CT for, 272
 screening for, 351
- Embolization, treatment of, in the ICU, 446-450
- Embolotherapy, percutaneous transcatheter, 446-450
- Encephalopathy, hepatic, 563
- End-stage renal disease. See also *Kidney disease*.
 incidence, 523
- Endocrine disease, pre-existing, in trauma patients, management, 537-554. See also specific disease.
- Endocrine system, pregnancy-induced changes in, 625
- Endotracheal tubes, placement and misplacement of, 417-419
- Enteric feeding tubes, inadvertent misplacement of, 249
- Epilepsy, traumatic injury in patients with, 637
- Epinephrine, in trauma patients with pre-existing cardiac disease, 491
- Esmolol, for life-threatening delirium, 754
 for sinus tachycardia, 494
- Ethanol, abuse of, in trauma patients, 596-598
- Ethic(s), in use of predictive scoring systems, 229-241. See also *Scoring system(s)*, *predictive*, *ethical appropriateness of*.
- Etomidate, pharmacology of, 718
- Extracorporeal membrane oxygenator (ECMO), described, 249-250
- Extraluminal air, plain film radiographic examination of, 283
- Extrathoracic subclavian artery, injury to, in trauma patients with pre-existing peripheral arterial disease, treatment, 583-584
- Extremities, lower, venous ultrasonography of, 341-353
 upper, venous ultrasonography of, 353-354
- Feeding tubes, enteral, placement and misplacement of, 420-421
 enteric, inadvertent misplacement of, 249
 nasogastric, placement and misplacement of, 420-421

- Fentanyl, for hyperadrenergic hyperfunction, 741-742
 in organ system failure, 745-746
 transdermal, for pain in mechanically ventilated patients, 768-769
- Fluid collections, extrapancreatic, CT of, 325
 infected, percutaneous management of, 445-446
- Fluid resuscitation, in trauma patients with pre-existing peripheral arterial disease, 576-577
- Flumazenil, uses of, 748-749
- Gadopentetate dimeglumine, in MRI, 403
- Gallbladder, ultrasonography of, 297-303
- Gallstone(s), ultrasonographic detection of, 298
- Gas exchange, abnormalities of, in trauma patients with chronic pulmonary disease, 515-516
 trauma effects on, 512
- Gastrointestinal bleeding, radionuclide evaluation of, 375-378
- Gastrointestinal system, narcotic effects on, 724
 pregnancy-induced changes in, 625
- Genitourinary tract, calcifications in, plain film radiographic examination of, 293
- Goiter, trauma patients with, 549
- Graft infection(s), in trauma patients with pre-existing peripheral arterial disease, treatment, 581-582
- Graft thromboses, in trauma patients with pre-existing peripheral arterial disease, 580-581
- Great vessels, renal, ultrasonographic detection of, 312-313
- Half-life, of drugs, 711
- Haloperidol, pharmacology of, 719-720
- Head injury, vegetative state following, outcome from, 224
- Head trauma, MRI of, 410-412
- Health Policy Corporation of Iowa (HPCI) plan, 147-148
- Heart block, complete, in trauma patients, treatment, 498
 first-degree, in trauma patients, treatment, 497
 second-degree, in trauma patients, treatment, 497-498
- Heart disease, ischemic, causes, 474-475
 clinical syndromes in, 475-476
 pre-existing, in trauma patients, 463
 treatment, 485-487
 terminology associated with, 474
 pre-existing, in trauma patients, 461-506
 angina, 466
 arrhythmias, 469-470
 cardiac risk factors associated with, 465-474
 ECG in, 480
 evaluation, 474-480
 heart failure, 466-468
 hemodynamic monitoring for, 480-483
 hospital stay affected by, 465
 hypertension, 470
 incidence, 461-464
 mitral insufficiency, 469
 mortality rates associated with, 464-465
 myocardial infarction, 465-466
 significance of, 464-474
 treatment, 483-499. See also specific disorder, e.g., *Arrhythmias(s)*.
 surgical problems, 483-484
 valvular heart disease, 468-469
 valvular, pre-existing, in trauma patients, 468-469
 treatment, 492-493
- Heart failure, congestive, defined, 477
 diagnosis, 480
 pathophysiology, 477-479
 in trauma patients, evaluation, 477-480
 in trauma patients, 466-468
 with pre-existing cardiac disease, treatment, 489-490
- Heart rate, control of, in trauma patients with pre-existing cardiac disease, 490-491
- Heart valves, prosthetic, in trauma patients with pre-existing cardiac disease, 493
- Hematologic system, pregnancy-induced changes in, 624-625
- Hematoma(s), hepatic, ultrasonographic detection of, 306-307
 mediastinal, chest CT for, 271
- Hemodialysis, in traumatized renal failure patients, 530-532

neuromuscular blocking agents for, 831-843. See also *Neuromuscular blocking agents (NMBAs), for respiratory failure*.
paralyzed patient in, monitoring and preventive care of, 815-829
secondary to status asthmaticus, outcome following, 211-212
in trauma patients with chronic pulmonary disease, 516-518
- Respiratory system, benzodiazepine effects on, 713-714
narcotic effects on, 723
in obese trauma patients, 615-616
pregnancy-induced changes in, 625
sleep deprivation effects on, 689
trauma effects on, 510-512
- Restraints, for patients on mechanical ventilation, 705
- Resuscitation, of traumatized renal failure patients, 528
- Ritodrine, for preterm labor, 631
- Roentgenography, chest, for trauma patients with chronic pulmonary disease, 510
- SAPS, 60
- SAPS II system, 98
- Scintigraphy, for acute stroke, 379-380
brain, 378-380
in evaluation of gastrointestinal bleeding, 377-378
gallium, for pulmonary infection, 385-386
gastrointestinal, 370
hepatobiliary, 370-375
for infectious diseases, 383-391
agent selection, 383-384
imaging techniques, 383-385
pulmonary, 366-369
availability of, 368
methodology in, 366-368
special problems and concerns with, 369
renal, 391-399
for TIAs, 379-380
- Scoring system(s), predictive, 1-18. See also *Intensive care unit (ICU) outcome, prediction of*.
in allocation of resources, 85-87
available systems, 94-99
basic concepts, 54-55
caution with, 93-110, 111-115
characteristics, 53-54
in clinical investigation, 84-85
for cost-containment purposes, 103
errors and bias in, 53-72
ethical appropriateness of, 229-241
case study, 230-231
clinical judgment in, 231-232
medical futility associated with, 232-233
evaluation, 162-165
future use of, 238-239
in ICU outcome, 73-89, 91-92
for individual patients, 79-82, 101
for internal quality assessment, 100
for interpretation of a quality comparison study, 100-101
models of, 53

- based on objective probability estimates, 57-68
 - with continuous variables, 59-68
 - with noncontinuous variables, 58-59
- based on subjective probability estimates, 55-57
- practical aspects of, 100-101
- properties of, 3-4
- for quality assessment, 82-84
- reasons for, 74-78
- reimbursement strategies in, 145-155
- requirements for, 118
- for shock, 180-181
- for societal and economic concerns, 74-76
- uses of, 79-87, 103-108
 - future, 238-239
 - in individual patients, 236-238
- Sedation, adjuncts to, for brain failure and delirium, 743
- choice of, in the ICU, 437-438
- in mechanically ventilated patients, 665-666, 668
- withdrawal from, problems related to, 749-750
- during withdrawal of life support technology, 755-756
- Sedative(s), intravenous, pharmacology of, 709-731
 - in organ system failure, 746-747
- Sedative reversal agents, role of, 747-749
- Sepsis, radiographic detection of, 390-391
- in trauma patients, 558
- Serotonin, in brain failure and delirium, 759-760
- Severity system(s). See *Scoring system(s)*.
- Shock, arterial lactate concentrations in, 181-183
 - clinical considerations with, 185-186
 - cytokine markers in, 184-185
 - hemodynamic indices in, 183-184
 - ICU outcome related to, 179-180
 - prognostic indices for, 180-188
 - scoring systems for, 180-181
 - states of, 179
 - treatment, outcome effects, 186-188
- Simplified Acute Physiology Score (SAPS), 60
- Simplified Acute Physiology Score (SAPS) II system, 98
- Sinus bradycardia, in trauma patients, treatment, 497
- Sinus tachycardia, in trauma patients, treatment, 494
- Sleep, in ICU, measurement of, 682-685
- and infectious disease, 682
- nonrapid eye movement (NREM), 681-682
- normal, 681-682
- rapid eye movement (REM), 681-682
- Sleep disturbances, and the ICU syndrome, 686-689
- in mechanically ventilated patients, 665, 681-694
 - causes, 686-688
 - effects on respiratory and immune function, 689
 - measurement of, 682-685
 - treatment, drugs, 690-691
 - nonpharmacologic, 689-690
- Small bowel, obstruction of, plain film radiographic examination of, 280
- Smoking, postoperative pulmonary complications related to, 512
- Sodium retention, in patients with pre-existing liver disease, 561
- Speech, long-term ventilation effects on, 856, 860-862
- Spinal cord, compression of, MRI of, 412-413
- Spleen, abscesses of, CT of, 328-329
- diseases of, CT of, 328-329
- infarcts of, CT of, 328
- Statistics, predictive, 19-35
- Status asthmaticus, respiratory failure associated with, outcome following, 211-212
- Stress response, defined, 661
- Stroke, acute, radionuclide scanning in, 379-380
 - coma following, prognosis, 219-221
 - MRI of, 410-412
- Stupor, defined, 661
- Subjective probability, defined, 54
- Substance abuse, in brain-injured trauma patients, 636
- defined, 595
- disorders related to, in trauma patients, 595-611. See also specific drug.
- Succinylcholine, description of, 785
- for respiratory failure, indications, 840
- uses of, 785
- Sundown syndrome, 735
- Suriclone, in brain failure and delirium, 760-761
- Swallowing, long-term ventilation effects on, 856, 862
- T-1/2 α , of drugs, 711
- Tachyarrhythmia(s), in trauma patients, treatment, 494-495
- Tachycardia, sinus, in trauma patients, treatment, 494
- supraventricular, in trauma patients, treatment, 495-496

- Tachycardia (*Continued*)
 ventricular, in trauma patients, treatment, 496
- Temazepam, for sleep disturbances in ICU, 690-691
- TENS. See *Transcutaneous electrical nerve stimulation*.
- Terbutaline, for preterm labor, 631
- Thrombosis, deep venous, vascular ultrasonography for, 341-353
- graft, in trauma patients with pre-existing peripheral arterial disease, 580-581
- renal vein, CT of, 331
- venous, in obese trauma patients, 617-618
- Thyroid disease, in trauma patients, 545-549
- Thyroid function, in the critically ill, 545-547
- TIAs. See *Transient ischemic attacks*.
- Torsades de pointes, in trauma patients, treatment, 496-497
- Tracheostomy tubes, placement and misplacement of, 419
